**DNR AND EPA ISSUE HAZARDOUS WASTE PERMIT TO MCDONNELL DOUGLAS**

JEFFERSON CITY, MO, MARCH 14, 1997 -- The Missouri Department of Natural Resources (DNR) and the U.S. Environmental Protection Agency (EPA) have issued a hazardous waste permit to McDonnell Douglas Corporation, McDonnell and Lindbergh Boulevard, St. Louis.

McDonnell Douglas manufactures high technology aerospace products, including military fighter aircraft, space systems and missiles. Hazardous wastes generated at this facility are those associated with the fabrication of aluminum, titanium, composite structures and other materials used in the manufacture of airframes. The wastes generated on site are stored in containers at two hazardous waste storage areas with a combined capacity of 26,180 gallons. This permit allows McDonnell Douglas to continue to store this waste at its facility.

Citizens can read the final permit and the summary and response to comments received during the public comment period at the following locations:

St. Louis County Library  
Prairie Commons Branch  
915 Utz Lane  
Hazelwood, MO  
Hours: 8:30 a.m. to 9 p.m., Monday through Friday  
8:30 a.m. to 5 p.m., Saturday

or by appointment at either of the following DNR offices:

Missouri Department of Natural Resources  
St. Louis Regional Office  
10805 Sunset Office Drive  
St. Louis, MO  
Phone: (314) 882-0101
